Name: _____

Fractions Decimals and Percents Chart

Complete the chart. Write each fraction in simplest form.

Learn: A fraction, a decimal and a percent can name the same amount. Example: 1/4 = 0.25 = 25%. To get a percent from a decimal, multiply by 100.

Fraction (simplest form)	Decimal	Percent
	0.1	
$\frac{4}{5}$		
	0.44	
	0.04	
$\frac{1}{5}$		
$\frac{3}{5}$		
$\frac{3}{20}$		
		40%
		5%
$\frac{3}{4}$		
	0.5	
		25%
		24%
		45%
